

Project Overview Report

March 13, 2013

A total of 332 projects that have received invitations from the Board of Directors (“Board”) to collaborate with the MSBA are currently in the MSBA’s Eligibility Period and Capital Pipeline. The following summary chart provides the number of projects in the Eligibility Period and each phase of the Capital Pipeline:

Statement of Interest (“SOI”) Review Status

On January 3, 2013, letters were sent to all Public School Districts in the Commonwealth announcing that the FY 2013 Statement of Interest Process would open on January 9, 2013 and close on April 10, 2013.

- To date 120 Districts have requested User Access to the SOI System
- To date 26 Statements of Interest have been submitted by 13 Districts

Eligibility Period

There are six districts in the Eligibility Period. One district, Woburn, is seeking local funding and authorization within the next 60 days, and two of the six districts have already secured funding. The remaining three districts have yet to confirm their dates for action.

An agreed-upon enrollment is a key prerequisite for the MSBA to commence a Feasibility Study with a district. To begin the enrollment projection process, a district must file enrollment information utilizing the MSBA's online enrollment projection tool. Since the last report, one district has completed the enrollment process.

Based upon the schedules anticipated by the districts for completion of the Eligibility Period requirements, staff anticipates recommending the six districts in Eligibility Period for an Invitation to Feasibility Study at upcoming Board meetings.

Capital Pipeline

Consultant Selection

After the district has completed all Eligibility Period requirements and has received a Board Invitation to Feasibility Study, the district procures an Owner's Project Manager ("OPM"). There are five districts in the Capital Pipeline that need to procure an OPM.

After a district has selected and executed a contract with an OPM, it selects a Designer utilizing either a local designer selection process for projects under \$5 million or the MSBA's Designer Selection Panel ("DSP") for projects over \$5 million. There are eight districts in the Capital Pipeline that are in the process of procuring a Designer.

Feasibility Study

Once a district has procured an OPM and Designer and a Feasibility Study Agreement has been executed, the district and its consultants must complete two Feasibility Study submittals, the Preliminary Design Program and the Preferred Schematic Report, prior to Board consideration to proceed into Schematic Design. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that five districts will present their preferred schematic designs to the Board at the upcoming June and July Board meetings.

Prior to consideration by the Board for Project Scope and Budget authorization, a district must submit a schematic design to the MSBA for review. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that five districts will appear before the Board for Project Scope and Budget Agreement authorization at the upcoming June and July Board meetings.

Commissioning

Since the last report, the MSBA has assigned Commissioning Consultants to an additional 16 projects as presented in the table below. To date, the MSBA has executed 225 Commissioning Consultant contracts, totaling \$17.4 million; 40 contracts have been completed.

Core Program – Total Project Budget Update

Upon receiving the Board’s approval of the Project Scope and Budget, the MSBA and participating districts enter into a Project Funding Agreement that establishes the Total Project Budget and the Estimated Maximum Total Facilities Grant for an approved project. Of the grants authorized by the Board, five projects have increased their Total Project Budgets due to acceptance of construction bids higher than the project estimates. In no event has the increase in budget resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board. Please also note that staff reported on the budget increases for the three projects shaded below at previous Board meetings.

District	School Name	Scope	Project Funding Agreement		PFA Bid Amendment		Reason for Increase to Total Project Budget
			Total Project Budget	Total Maximum Facilities Grant	Total Project Budget	Total Maximum Facilities Grant	
Core Program							
Andover	Bancroft Elementary School	New	\$44,659,837	\$16,773,753	\$50,374,837	TBD*	The District has appropriated additional funds to cover the costs associated with increased construction costs and additional contingencies for litigation/settlement costs and other ineligible costs.
Essex North Shore Agricultural & Technical School	Essex North Shore Agricultural & Technical School District	New	\$125,000,000	\$77,500,000	\$133,770,000	\$77,500,000	The Board was informed at the March 30, 2011 meeting that the Total Project Budget had increased due to additional ineligible scope that would be funded by DCAM.
Lexington	Estabrook Elementary School	New	\$40,792,248	\$12,250,739	\$42,554,862	TBD*	The District has executed a GMP that exceeds the Construction Budget of the PFA. The District is currently reviewing its project budget to determine the use of the additional appropriation funds it appropriated in excess of the Total Project Budget.
Somerville	East Somerville Community School	Add/Reno	\$33,185,258	\$15,237,996	\$38,006,621	\$15,237,996	At the March 28, 2012 Board Meeting, the Board approved an amendment to the PFA and a \$6.25M District loan.
Uxbridge	Uxbridge High School	New	\$43,000,000	\$22,362,328	\$44,986,479	\$22,362,328	The District has appropriated additional funds to cover the costs associated with the construction of athletic fields originally included in the PFA but which were not included in the bid as the District's construction contract would have exceeded the budget.

*PFA Bid Amendment has not been developed to calculate a revised total facilities grant amount. The Total Maximum Facilities Grant will not exceed the Board authorized amount in the PFA but upon review may decrease.

Further, MSBA staff note that two additional districts (North Reading and Stoneham) have reported construction costs higher than their project estimates. Staff is awaiting information from the districts and will provide updates to the Board as they become available.

Status of Green Repair Program

169 projects participating in the Green Repair Program have received authorization to enter into a PFA, totaling \$366,647,226 in Total Project Costs and \$222,885,258 in MSBA grants.

Green Repair – Schedule Extension Update

Eight of the 169 Green Repair Projects did not meet their anticipated construction completion deadline in 2012. Schedule delays can be attributed to bid protests, lead time for windows, and construction delays on site.

The MSBA granted each district a conditional extension to its Project Funding Agreement pending compliance with the following stipulations:

- The district must submit a detailed, revised construction timeline showing how the work will be completed at each school by no later than August 30, 2013;
- An Amendment to the Project Funding Agreement between the MSBA and the district must be executed to include the updated project schedule; and
- Any costs that may result from the district’s requested extension of the construction schedule will be the sole responsibility of the district and are categorically ineligible for reimbursement by the MSBA.

Each of these projects has a revised construction schedule and will be complete by the beginning of the 2013-2014 school year. In no event has the extended schedule resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board. Please note that staff reported on the schedule extensions for the six projects shaded below at previous Board meetings:

District	School	Scope	Original Construction Completion Date	Updated Construction Completion Date	Reason for Schedule Extension
Brockton	Brockton High School	Windows and Roof	31-Dec-12	30-Aug-13	Construction fell behind schedule and the District did not want work being done in an occupied building. The roof work is complete.
Haverhill	Consentino Middle School	Windows and Boiler	31-Dec-12	31-May-13	Bid protests and lead times caused the window project to extend beyond the 2012 construction deadline. The boiler project is complete.
Haverhill	John G. Whittier Middle School	Windows	31-Dec-12	31-May-13	Bid protests and lead times caused the window project to extend beyond the 2012 construction deadline.

Wachusett Regional	Thomas Prince Elementary School	Roof	23-Mar-12	30-Apr-13	The district issued a change order to replace an existing skylight and due to lead times the work cannot be done until the spring of 2013.
Westport	Westport High School	Roof	4-Sep-12	30-Apr-13	The district issued a change order to add scuppers to the roof and the work will be completed in the spring of 2013.

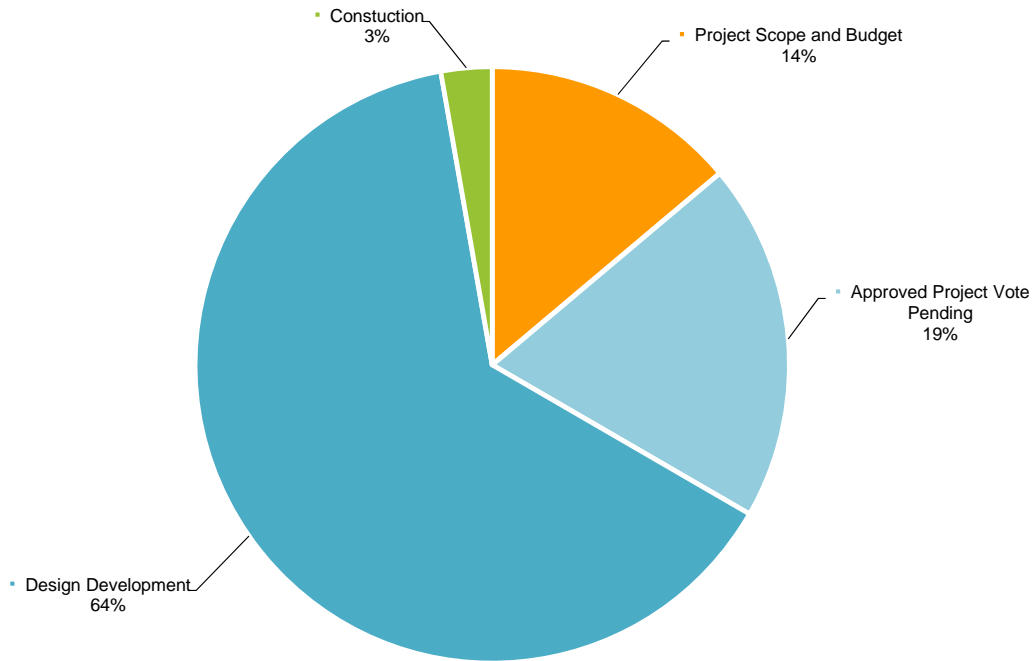

Green Repair - Total Project Budget Update

Upon receiving the Board's approval of the Project Scope and Budget, the MSBA and participating districts enter into a Project Funding Agreement that establishes the Total Project Budget and the Estimated Maximum Total Facilities Grant for an approved project. Of the 169 grants authorized by the Board for the Green Repair Program, 15 projects have increased their Total Project Budgets due to acceptance of construction bids higher than the project estimates, or as a result of change orders issued on the project. In no event has the increase in budget resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board. Status of Accelerated Repair Program

Currently there are a total of 24 districts, representing 36 projects, in the Accelerated Repair Program. All projects are under contract with consultants and have advanced into the Preferred Schematic or Project Scope and Budget Phases. At the April 3, 2013 meeting of the Board of Directors, MSBA staff will recommend a Project Funding Agreement (“PFA”) with two districts, representing five projects totaling \$8,783,112 in Total Project Costs. With the Board’s approval, 36 projects will have been authorized to enter into a PFA, totaling \$63,009,653 in Total Project Costs and a maximum of \$38,267,952 in MSBA Total Facilities Grant funding.
