Project Overview Report October 29, 2014

A total of 320 projects that have received invitations from the Board of Directors ("Board") to collaborate with the MSBA are currently in the MSBA's Eligibility Period and Capital Pipeline. The following summary chart provides the number of projects in the Eligibility Period and each phase of the Capital Pipeline:

Statement of Interest ("SOI")

2014 SOI Process

The Fiscal Year 2014 SOI filing period opened on January 10, 2014. The deadline to file SOIs for consideration in the Accelerated Repair Program ("ARP") was Friday, February 14, 2014. The MSBA received 119 SOIs, submitted by 60 districts for consideration in the ARP. Invites into the ARP were concluded at the June 4, 2014 Board of Directors Meeting and 37 districts, representing 51 projects, were invited into the Program.

The SOI closing date for districts submitting for consideration in the Core Program, which is primarily for projects beyond the scope of Accelerated Repair, including extensive repairs, renovations, addition/renovations, and new school construction, was April 11, 2014. The MSBA received 108 Core Program SOIs. The review process for these SOIs will continue into the fall of 2014. The MSBA anticipates invites into the Eligibility Period at the Board of Directors meetings in early 2015.

Eligibility Period

There are six districts in the Eligibility Period. Of the six, two districts have already secured funding. The remaining four districts have yet to confirm their date for action.

An agreed-upon enrollment is a key pre-requisite for the MSBA to commence a Feasibility Study with a district. To begin the enrollment projection process, a district must file enrollment information utilizing the MSBA's online enrollment projection tool. Since the last report, three districts have completed the enrollment process.

Based upon the schedules anticipated by the districts for completion of the Eligibility Period requirements, staff anticipates recommending the six districts in the Eligibility Period for an Invitation to Feasibility Study at upcoming Board meetings.

Capital Pipeline

Consultant Selection

After the district has completed all Eligibility Period requirements and has received a Board Invitation to Feasibility Study, the district procures an Owner's Project Manager ("OPM"). There are currently eight districts in the Capital Pipeline that need to procure an OPM.

After a district has selected and executed a contract with an OPM, it selects a Designer utilizing either a local designer selection process for projects under \$5 million or the MSBA's Designer Selection Panel ("DSP") for projects over \$5 million. There are currently three districts in the Capital Pipeline that are in the process of procuring a Designer.

Feasibility Study

Once a district has procured an OPM and Designer and a Feasibility Study Agreement has been executed, the district and its consultants must complete two Feasibility Study submittals, the Preliminary Design Program and the Preferred Schematic Report, prior to Board consideration to proceed into Schematic Design. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that four districts will present their preferred schematic designs to the Board at the upcoming January and March Board meetings.

Prior to consideration by the Board for Project Scope and Budget authorization, a district must submit a Schematic Design to the MSBA for review. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that five districts will appear before the Board for Project Scope and Budget Agreement authorization at the upcoming January and March Board meetings.

Commissioning

Since the last report, the MSBA has assigned Commissioning Consultants to one additional project presented in the table below. To date, the MSBA has executed 281 Commissioning Consultant contracts, totaling \$21.1 million. To date, 124 contracts have been completed.

District	School	Estimated Const. Cost (million)	Commissioning Consultant	Contract Amount
Boston	Dearborn STEM Academy	\$60.20	Symmes, Maini & McKee Associates	\$96,227

Total \$60.20 M Total \$96,227

The table below represents the status of commissioning assignments sorted by the fiscal year in which the commissioning work orders were issued.

Fiscal Year	No. Work Orders Issued	Value of Work Orders Issued	Total Invoiced	Percent Complete
FY10	31	\$4,231,376	\$4,261,828	100%
FY11	95	\$6,328,287	\$5,793,260	92%
FY12	52	\$4,459,061	\$3,570,243	80%
FY13	55	\$3,386,847	\$1,938,724	57%
FY14	47	\$2,604,062	\$742,300	29%
FY15	2	\$282,288	\$0	0%

Design Development

Once a district has secured local funding and has entered into a Project Funding Agreement with the MSBA, it enters into the Design Development phase. Currently, there are 16 projects in the Design Development phase with a total estimated construction cost of approximately \$466.6 million: six Accelerated Repair projects and 10 Core Program projects. The 10 Core Program projects in Design Development have a total estimated construction cost of approximately \$456.3 million and are listed below.

Elementary School Districts	Middle and Middle/High School Districts	High School Districts
Athol-Royalston Regional	Georgetown	Boston
Milford	Haverhill	Lunenburg
Newton		North Middlesex Regional
Northborough		Plymouth

Construction

When a district issues a Notice to Proceed, the project is advanced to the Construction phase. Currently, there are 70 projects in the Construction phase with a total estimated construction cost of \$1.54 billion: 35 Accelerated Repair projects, one Science Lab Initiative project, one Waitlist project, and 33 Core Program projects. The 33 Core Program projects have a total estimated construction cost of \$1.47 billion and are listed below. This does not include the 47 projects that have reached substantial completion and are currently in the Building Complete phase.

Summary of Bid Data

These numbers are based on preliminary information received from the district and are subject to further review and calculation.

Year	Number of Projects	Design Basis for Enrollment	Project Budget	Construction Budget
2014	17	14,345	\$935.0 M	\$731.9 M
2015	9	7,650	\$644.7 M	\$505.8 M
Grand Total	26	21,995	\$1.58 B	\$1.24 B

Core Program – Total Project Budget Update

Upon receiving the Board's approval of the Project Scope and Budget, the MSBA and participating districts enter into a Project Funding Agreement that establishes the Total Project Budget and the Estimated Maximum Total Facilities Grant for an approved project. Of the grants authorized by the Board, seven projects have increased their Total Project Budgets due to acceptance of construction bids higher than the project estimates, and one project has increased its Total Project Budget due to an increase in its site acquisition cost budget. In no event has the increase in budget resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board. Please note that staff reported on these budget increases for the seven projects shaded below at previous Board meetings.

		r roject r unum	g Agreement	Final	nendment / Audit				
School Name	Scope	Total Project Budget	Total Maximum Facilities Grant	Total Project Budget	Total Maximum Facilities Grant	Reason for Increase to Total Project Budget			
			Core P	Program					
Bancroft Elementary School	New	\$44,659,837	\$16,773,753	\$50,374,837	TBD*	The District has appropriated additional funds to cover the costs associated with increased construction costs and additional contingencies for litigation/settlement costs and other ineligible costs.			
Burlington Marshall Simonds MS	Add/ Reno	\$32,865,272	\$17,143,365	\$34,221,929	\$15,362,127	The District appropriated at its May 2012 annual town meeting through Articles 18: 19, additional funds for the costs associated with the construction of the new field complex and field lighting replacement.			
Essex North Shore Agricultural & Technical School District	New	\$125,000,000	\$77,500,000	\$133,770,000	\$77,500,000	The Board was informed at the March 30, 2011 meeting that the Total Project Budget had increased due to additional ineligible scope that would be funded by DCAM.			
Essex North Shore Agricultural & Technical School District	New	\$125,000,000	\$77,500,000	\$134,501,368	\$77,500,000	The District has appropriated additional funds to cover the costs associated with increased construction costs for horse tack barn renovations.			
Estabrook Elementary School	New	\$40,792,248	\$12,250,739	\$43,392,248	\$12,148,491	The District has executed a GMP that exceeds the Construction Budget of the PFA. The District has appropriated additional funds to cover the costs associated with increased construction costs and additional contingencies.			
North Reading Middle /High School	Add/ Reno	\$107,727,074	\$49,323,123	\$123,227,074		This is a CMR project. The estimated, reconciled construction costs tracked over budget at DD (\$9,746,655 over), 60% (\$4,655,965 over), and 90% (\$15,136,846 over). A Town override vote in March 2013 obtained an additional \$15,500,000 in local funding to proceed.			
Staff Sergeant James J. Hill Elementary School (currently the McKinley ES)	New	\$45,402,396	\$29,551,048	TBD*	\$29,551,048	At Project Scope and Budget, the Total Project Budget was approved at \$44,382,396. The City of Revere has increased the land acquisition budget. Therefore, the projected total project budget at PFA has increased to \$45,402,396. Note that the MSBA grant has not changed since the Project Scope and Budget Agreement.			
East Somerville Community School	Add/ Reno	\$33,185,258	\$15,237,996	\$38,006,621	\$15,237,996	At the March 28, 2012 Board Meeting, the Board approved an amendment to the PFA and a \$6.25M District loan.			
Uxbridge High School	New	\$43,000,000	\$22,362,328	\$44,986,479	\$22,362,328	The District has appropriated additional funds to cover the costs associated with the construction of athletic fields originally included in the PFA but which were not included in the bid as the District's construction contract would have exceeded the budget.			
	Bancroft Elementary School Burlington Marshall Simonds MS Essex North Shore Agricultural & Technical School District Essex North Shore Agricultural & Technical School District Estabrook Elementary School North Reading Middle /High School Staff Sergeant James J. Hill Elementary School (currently the McKinley ES) East Somerville Community School	Bancroft Elementary School Burlington Marshall Simonds MS Essex North Shore Agricultural & Technical School District Essex North Shore Agricultural & Technical School District Essex North Shore Agricultural & Technical School District Estabrook Elementary School Plight School North Reading Middle High School Add/ Reno Staff Sergeant James J. Hill Elementary School (currently the McKinley ES) East Somerville Community School Add/ Reno \$44,659,837 Add/ Reno \$125,000,000 \$125,000,000 \$125,000,000 \$125,000,000 \$107,727,074	Total Project Budget Facilities Grant	Total Project Budget Total Maximum Facilities Grant Total Project Budget	School Name School Total Project Budget Total Maximum Facilities Grant Total Maximum Facilities Grant			

^{*}PFA Bid Amendment has not been developed to calculate a revised total facilities grant amount. The Total Maximum Facilities Grant will not exceed the Board authorized amount in the PFA but, upon review, may decrease.

Status of Accelerated Repair Program

Currently there are a total of 70 districts, representing 131 projects, either active or completed in the Accelerated Repair Program.

2014 Accelerated Repair Program

Following a review of 2014 Accelerated Repair Statements of Interest, 36 districts, representing 51 projects, were invited into the Program at the June 2014 Board Meeting. One district authorized a Declaration of Removal of a Statement of Interest for one of its projects. The 36 districts, representing 50 projects, continue to complete the Schematic Design phase following the execution of contracts with their assigned consultants. Eight districts, representing 13 projects, are seeking approval for Project Funding Agreements at the November Board Meeting.

2013 Accelerated Repair Program

Currently 26 districts, representing 47 projects, have been approved for Project Funding Agreements in the Accelerated Repair Program. Two districts authorized Declarations of Removal of a Statement of Interest and removed their potential projects from the Program. One of the two districts remains in the 2013 Accelerated Repair Program with additional projects. The 2013 Accelerated Repair Program is proceeding with 25 districts, representing 45 projects authorized for \$94,650,790 in Total Project Budgets, and a maximum of \$54,662,550 in MSBA Total Facilities Grant Funding. Since the last report, the number of projects that have reached building completion has increased to 24.5%.

2012 Accelerated Repair Program

All 24 districts, representing 36 projects, approved for the Accelerated Repair Program in 2012 have been authorized to enter into a Project Funding Agreement, totaling \$63,009,653 in Total Project Costs and a maximum of \$38,267,952 in MSBA Total Facilities Grant funding. Of the 36 projects, 27 completed construction in 2013. Of the nine projects scheduled for construction completion in 2014, two are substantially complete. The chart below represents the progress of the 36 projects approved in 2012. Since the last report, the number of projects that have completed final audit has risen from 19.4% to 33.3%.

Status of Green Repair Program

The Green Repair Program has resulted in PFA authorizations totaling \$366,647,226 in Total Project Costs and \$222,885,258 in MSBA grants. Of the 189 projects, 163 have been approved for final grant payments. All projects that have not been previously approved for final grant payments are substantially complete.

2012 Accelerated Repair Projects - Construction Estimate vs. 2013 Bid Amount

The 2012 Accelerated Repair Projects have completed the bid phase. Of the 36 projects, 29 bids came within their estimated budget. In total, \$8,099,015 in potential grant savings was realized. The grant savings stem from a difference of \$12,750,211 between the construction estimates and the bid amounts.

				Total	\$51,494,496	\$38,744,285	\$12,750,211		\$8,099,015

^{*}These numbers are based on preliminary information received from the district and are subject to further review and calculation.

^{**}The construction estimate and bid amount do not include pre-construction services and alternatives.

Accelerated Repair Projects - Schedule Extension Update

The MSBA has granted districts conditional extensions to their Project Funding Agreements pending compliance with the following stipulations:

- The district needed to submit a detailed, revised construction timeline showing how the work will be completed at each school; and
- Any costs that may result from the district's requested extension of the construction schedule will be the sole responsibility of the district and are categorically ineligible for reimbursement by the MSBA.

Schedule delays for these districts can be attributed to local funding issues, lead time for windows, and construction delays on site. In no event have the extended schedules resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board.

Nine of the 36 2012 Accelerated Repair Projects did not meet their anticipated construction completion dates. Each of these projects developed a revised construction schedule. Five of these projects are substantially complete while four remain in construction.

District	School	Scope	Original Construction Completion Date	Updated Construction Completion Date	Reason for Schedule Extension
Blackstone-Millville RSD	Blackstone-Millville RHS	Roof	26-Dec-13	1-Sep-14	The District fell behind schedule due to local funding issues.
Bridgewater-Raynham RSD	Bridgewater MS	Roof	1-Sep-13	1-Sep-14	The District fell behind schedule due to local funding issues and incorporation of new OPM to project team.
Bridgewater-Raynham RSD	Laliberte ES	Roof	1-Sep-13	1-Sep-14	The District fell behind schedule due to local funding issues and incorporation of new OPM to project team.
Bridgewater-Raynham RSD	L.B. Merrill ES	Roof	1-Sep-13	1-Sep-14	The District fell behind schedule due to local funding issues and incorporation of new OPM to project team.
North Attleborough	Roosevelt Ave. ES	Windows	27-Sep-13	31-Mar-14	Construction fell behind schedule due to material delivery delays. Corrective work was completed to ensure windows pass commissioning tests.
Taunton	Galligan School	Roof	13-Nov-13	31-Dec-13	District issued a Change Order for installation of tapered insulation and membrane overlay to prevent ponding around the chimney area.
Worcester	Lake View School	Windows/Doors	13-Sep-13	14-Feb-14	Construction fell behind schedule due to material delivery delays.
Worcester	May Street School	Windows/Doors	13-Sep-13	15-Mar-14	Construction fell behind schedule due to material delivery delays.
Worcester	New Citizens Center School	Windows/Doors & Boilers	13-Sep-13	14-Feb-14	Construction fell behind schedule due to material delivery delays. Boiler scope completed per baseline schedule.

Five of the 45 2013 Accelerated Repair Projects will not meet their anticipated construction completion dates in 2014. The projects have revised construction schedules and are scheduled to be completed by the beginning of the 2015-2016 school year.

District	School	Scope	Original Construction Completion Date	Updated Construction Completion Date	Reason for Schedule Extension
Hamilton-Wenham RSD	Winthrop ES	Windows	15-Sep-14	13-Aug-15	The District and its consultants have determined that the estimated lead time for windows requires construction to be scheduled for 2015.
Pathfinder Voc/Tech	Pathfinder Voc/Tech	Roof	22-Sep-14	28-Aug-15	The District fell behind schedule due to local funding issues.
Quincy	Merrymount ES	Windows	22-Sep-14	28-Aug-15	The District and its consultants have elected to re-bid the project and complete construction in 2015.
Quincy	North Quincy High	Windows	22-Sep-14	28-Aug-15	The District and its consultants have elected to re-bid the project and complete construction in 2015.
Quincy	Wollaston ES	Windows	22-Sep-14	28-Aug-15	The District and its consultants have elected to re-bid the project and complete construction in 2015.
