Discussion

The OPM and Designer conducted a feasibility analysis of the facility and developed a schematic design including a proposed scope of work, schedule, and estimated budget. The District's Designer, Shekar & Associates, Inc., recommends a boiler replacement project at the Tri-County Regional Vocational Technical High School. The Designer has confirmed that the boiler will be in compliance with the MSBA's sustainability requirements.

MSBA staff reviewed the consultants' existing conditions analysis and proposed schedule provided by the District and have discussed the scope and budget with the District and its

consultants. The District has provided a Total Project Budget of \$998,120 which includes a construction cost of \$729,259. Construction costs include:

- \$591,945 for the boiler replacement
- \$137,314 for demolition and associated work
