STATEMENTS OF INTEREST (SOIs)

2015 SOI Process

The 2015 Statement of Interest ("SOI") process opened on Friday, January 9, 2015. The deadline to file a SOI for consideration in the Accelerated Repair Program ("ARP") was Friday, February 13, 2015. Due to inclement weather, the MSBA extended the deadline for ARP printed SOI material and related vote information to Friday, February 17, 2015. As of the deadline, the MSBA received 61 SOIs, submitted by 24 districts for consideration into the Program. Invites into the ARP were concluded at the June 3, 2015 Board of Directors meeting; and 24 districts, representing 44 projects, were invited into the Program.

The deadline to file a SOI for consideration in the Core Program, which is primarily for projects beyond the scope of Accelerated Repair, including extensive repairs, renovations, additions/renovations and new school construction, was Friday, April 10, 2015. As of the deadline, the MSBA received 97 Core Program SOIs. The review process for these SOIs continues with invites into Eligibility Period anticipated at the winter of 2016 Board of Directors meetings.

CORE PROGRAM

Eligibility Period

There are 12 districts in Eligibility Period. Of the 12, four districts have secured funding, while the remaining eight districts have yet to confirm their dates for action.

An agreed-upon enrollment is a key pre-requisite for the MSBA to commence a Feasibility Study with a district. To begin the enrollment projection process, a district must file enrollment information utilizing the MSBA's online enrollment projection tool. All 12 districts have completed their online enrollment projection information. Of the 12 districts, three districts have received their enrollment certifications.

Based upon the schedules anticipated by the districts for completion of Eligibility Period requirements, staff anticipates recommending the districts in Eligibility Period for an Invitation to Feasibility Study at upcoming Board meetings.

Consultant Selection

OPM Selection

After the district has completed all Eligibility Period requirements and has received a Board Invitation to Feasibility Study, the district procures an Owner’s Project Manager (“OPM”). Since the last report, one district has completed its OPM selection as shown shaded in the table below. Currently, there are six districts in the Capital Pipeline that are in the process of procuring an OPM.

District	School	Anticipated Selection
Millis	Clyde F. Brown ES	August 2015
Ipswich	Winthrop ES	September 2015
Saugus	Saugus High School	December 2015
Holyoke	Lt. Elmer J. McMahon ES	TBD
Boston	Boston Arts Academy	TBD
Lynn	Pickering Middle School	TBD
Westport	Westport Middle School	TBD

Designer Selection

After a district has selected and executed a contract with an OPM, it selects a Designer utilizing either a local designer selection process for projects under \$5 million or the MSBA’s Designer Selection Panel (“DSP”) for projects over \$5 million. Since the last report, two districts have completed their Designer selections as shown shaded in the table below. There are currently two districts in the Capital Pipeline that are in the process of procuring a Designer.

For additional information on the selected consultant teams, see Appendix A.

Feasibility Study

Once a district has procured an OPM and Designer, the district and its consultants must complete two Feasibility Study submittals, the Preliminary Design Program and the Preferred Schematic Report, prior to Board consideration to proceed into Schematic Design. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that seven districts will present their preferred schematic designs to the Board at the upcoming September, November and January Board meetings.

Schematic Design

Prior to consideration by the Board for Project Scope and Budget authorization, a district must submit a Schematic Design to the MSBA for review. Based on the most recent data and schedules provided to the MSBA by districts, the MSBA anticipates that 11 districts will appear before the Board for Project Scope and Budget Agreement authorization at the upcoming September, November and January Board meetings.

Commissioning

The MSBA assigns a Commissioning Consultant once a district has secured local funding for the Board approved project. Since the last report, the MSBA has assigned additional Commissioning Consultants to four projects presented in the table below. To date, the MSBA has executed 328 Commissioning Consultant contracts, totaling \$23.6 million. To date, 167 contracts have been completed.

PROJECT VARIANCES

Core Program – Total Project Budget Update

Upon receiving the Board’s approval of the Project Scope and Budget, the MSBA and participating districts enter into a Project Funding Agreement that establishes the Total Project Budget and the Estimated Maximum Total Facilities Grant for an approved project. Staff has reported on budget increases for the 11 projects shaded below at previous Board meetings. In no event has the increase in budget resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board.

As of this report, staff notes that two projects have increased their Total Project Budget.

Winthrop	Winthrop MS/HS	New	\$81,818,740	\$42,582,841	TBD*	TBD*	The MSBA Board Approved Total Project Budget increased due to revised FEMA flood plain requirements which necessitated the elevation of the new building to be raised. Note that the increased Total Project Budget will not increase the Maximum Total Facilities Grant.
Woburn**	Wyman-Hurld ES	New	\$33,705,396	\$14,387,427	TBD*	TBD*	The District had completed a project review with its Conservation Commission and an Order of conditions was issued on June 12, 2015. A neighborhood group has appealed this Order and it is now under review by DEP. The District has experienced delays in completing its City Council vote for its appropriation and incurred additional costs.

*PFA Bid Amendment has not been developed to calculate a revised Total Facilities Grant amount. The Total Maximum Facilities Grant will not exceed the Board authorized amount in the PFA but, upon review, may decrease.

**Pending an executed Project Funding Agreement.

Accelerated Repair Projects – Schedule Extension Update

The MSBA has granted districts conditional extensions to their Project Funding Agreements pending compliance with the following stipulations:

- The district needed to submit a detailed, revised construction timeline showing how the work will be completed at each school; and
- Any costs that may result from the district’s requested extension of the construction schedule will be the sole responsibility of the district and are categorically ineligible for reimbursement by the MSBA.

Schedule delays for these districts can be attributed to local funding issues, lead time for windows, and construction delays on site. In no event have the extended schedules resulted in an increase to the Estimated Maximum Total Facilities Grant as authorized by the Board.

Seven of the 45 2013 Accelerated Repair Projects did not meet their anticipated construction completion dates in 2014. These projects have revised construction schedules and are scheduled to be completed by the beginning of the 2015-2016 school year.

As of this report, staff notes that there is no new activity.
