CAPITAL PIPELINE OVERVIEW

Status of Current Projects

A total of 367 projects that have received invitations from the Board of Directors ("Board") to collaborate with the Massachusetts School Building Authority ("MSBA") are currently in the MSBA's Eligibility Period and Capital Pipeline. The summary chart provides the number of projects in Eligibility Period and each phase of the Capital Pipeline. For a detailed look at the Capital Pipeline projects, please go to <u>www.massschoolbuildings.org/building</u> and select "Capital Pipeline Status Chart". Capital Planning Updates:

The following FY 17 objectives have been completed and approved by the Board:

- 11/9/16 Remove the incentive points for use of the Construction Manager at Risk approved.
- 11/9/16 Revisions to MSBA policy that would allow auditorium and gymnasium spaces above MSBA guidelines at the district's sole expense for districts that are approved to proceed into Schematic Design on or after January 1, 2017.
- 11/9/16 Remove the previously approved Model School designs from the Model School Program.
- 2/15/17 Update the MSBA's sustainability policies in relation to the 9th building code.

STATEMENTS OF INTEREST (SOIs)

2017 SOI Process

The 2017 SOI submittal period opened on January 6, 2017. The deadline to file SOIs for consideration in the ARP, which is primarily for the repair and/or replacement of roofs, windows/doors, and/or boilers in an otherwise structurally sound facility ended on February 17, 2017. Given the potential budget impact from the 69 qualifying SOIs filed for the ARP program in 2017, at the April 24, 2017 Facilities Assessment Subcommittee Meeting and the May 12, 2017 Board of Directors Meeting, MSBA staff recommended limiting the number of ARP invitations this year. MSBA staff's recommendation that only systems of 30 years or more be considered for invitation to the 2017 ARP was approved at the May 12, 2017 Board meeting.

For the 2017 ARP program, MSBA staff's recommendation to invite systems of 30 years or more resulted in the consideration of 36 of the 69 schools for which qualifying SOIs were received. Of the 36 schools, the MSBA conducted site visits at 19 of these schools from March 21, 2017 to March 30, 2017. At the May 12, 2017 Board Meeting, the 19 schools received invitations to the 2017 ARP program. For the remaining 17 of 36 schools, the MSBA conducted site visits from May 2, 2017 to May 4, 2017. Upon collecting and reviewing additional information during and after the site visits, MSBA staff recommends the 17 schools for invitation to the 2017 ARP at the June 28, 2017 Board meeting.

The deadline to file SOIs for consideration in the Core Program, which is primarily for projects beyond the scope of ARP, including extensive repairs, renovations, addition/renovations, and new school construction opened on January 6, 2017 and ended Friday, April 7, 2017, with due diligence on the 83 submittals underway. Recommendation of Senior Study candidates were presented at the June 7, 2017 Facilities Assessment Subcommittee and are anticipated for the June 28, 2017 Board meeting.

CORE PROGRAM

ELIGIBILITY PERIOD

There are 17 districts in Eligibility Period, with five districts having secured their funding.

An agreed-upon enrollment is a key pre-requisite for the MSBA to commence a Feasibility Study with a district. To begin the enrollment projection process, a district must file enrollment information utilizing the MSBA's online enrollment projection tool. Four of the 17 districts currently in Eligibility Period have completed their online enrollment projection information.

Amendment to the Project Funding Agreement (PFA)

Upon receipt of construction bids or the execution of a GMP, a district submits the Contractor's Schedule of Values to the MSBA. MSBA staff and the district collaborate to reconcile the actual construction costs against the estimated construction budget and an amendment to the PFA is executed to reflect bid costs. The chart, shown below, is the number of amendments to PFAs, listed by fiscal year.

Accelerated Repair Projects – Schedule Extension Update

The MSBA has granted districts conditional extensions to their PFAs pending compliance with the following stipulations:

- The district must submit a detailed, revised, construction timeline that explains how the work will be completed at each school; and
- Any costs that are related to a district requesting an extension to the construction schedule will be the sole responsibility of the district and those costs are categorically ineligible for reimbursement by the MSBA.

Schedule delays for these districts can be attributed to local funding issues, lead time for windows, and construction delays on site. In no event have the extended schedules resulted in an increase to the Estimated Maximum Total Facilities Grant, as authorized by the Board.

One of the 43 2015 ARP Projects did not meet its construction completion date in 2016. This Project revised its construction schedule and is scheduled to be completed in 2017. Staff has reported previously on the shaded project listed below. (There is no new activity to report on.)

District	School	Scope	Original Construction Completion Date	Updated Construction Completion Date	Reason for Schedule Extension
Quincy	Beechwood Knoll Elementary	Roof Windows/Doors	8/23/2016	8/28/2017	The District and its consultants have determined that bidding for construction in 2017 would better serve the project budget and existing facilities.

District	District School		Original Updated Construction Construction Completion Completion Date Date		Reason for Schedule Extension
Dartmouth	Dartmouth Middle	Roof	8/30/17	8/30/18	The District and its consultants have determined that bidding for construction in 2018 would better serve the project budget and existing facilities. Construction in 2018 would also better ensure that all abatement work could occur in an unoccupied building.
North Brookfield	North Brookfield Elementary	Roof	9/5/17	8/27/18	The district and its consultants have determined that bidding for construction in 2018 would better serve the project budget and existing facilities.

Core Program – Total Project Budget Update

Upon receiving the Board's approval of the Project Scope and Budget, the MSBA and participating districts enter into a Project Funding Agreement, which establishes the Total Project Budget and the Estimated Maximum Total Facilities Grant for an approved project. Staff has reported on budget increases for the 18 projects shaded below at previous Board Meetings. Project information that is new or updated from the last Board Meeting is un-shaded. In no event has the increase in budget resulted in an increase to the Estimated Maximum Total Facilities Grant, as authorized by the Board. Since the last report, one project has been added to the chart.
